## ABOUT ME

I am a highly adaptable and self-driven professional, proudly known as an Office Administration Expert, with hands-on experience in Office Administration, Strong Administrative Budgeting & Cost Control, System Operations, Invoice and Tax Compliance, Microsoft Office Application, ERP, IT Infrastructure and Facility Management. With a sharp eye for productivity and functionality, I've built and maintained professional offices, created engaging visual content, and handled technical productivity tasks with precision for offices. With ability and nature of work being quick productive while maintaining Formal Communication and Organizational Skills, Problem-Solving & Analytical Abilities my work is worth it. My proficiency in Diplomatic Computer Operating, Accounting Documentation & Files Handling, Bookkeeping and Clerkly Scribal skills enable me to manage digital systems, accounts, organize workflows, and ensure smooth operations across both technical, administrative and clerical domains.

- Client consultation & briefs: Understand client goals, target audience, and brand to translate ideas into design concepts for web, graphics, and presentations.
- Website design & UI/UX: Create responsive websites in Adobe XD, focusing on user flow, wireframes, and modern UI for portfolios, business, and e-commerce sites.
- Frontend implementation: Convert approved designs into HTML/CSS/JS or WordPress/Elementor/Vercel sites, ensuring mobile responsiveness and fast load times.
- Graphic design for branding: Design logos, brand kits, social media posts, banners, brochures, and marketing collateral aligned with brand identity.
- PPT & Keynote presentations: Build high-impact pitch decks, investor decks, corporate reports, and sales presentations with clean layouts and data visualization.
- Visual storytelling: Use typography, color theory, and imagery to make complex information clear and engaging across all design formats.
